

## SOUL TIES

“One flesh” or “souls knit together”

A connection that surpasses the physical realm. A spiritual bond that is good or bad.

### **Jonathan and David**

“As soon as he had finished speaking to Saul, the soul of Jonathan was knit to the should of David, and Jonathan loved him as his own soul” (1 Samuel 18:1)

### **Shechem and Dinah**

“But his soul longed for and clung to Dinah” (Genesis 34:3)

## DISSOCIATIVE IDENTITY (Disorder) or DID

○ {formerly Multiple Personality Disorder or MPD}

It is a spiritual condition that has been labeled as a mental health condition. Someone with DID has multiple, distinct personalities. The various personalities control the individual’s behavior at different times. The individual can ‘switch’ back and forth randomly between different ‘persons.’ Can arrive through spontaneous or inductive processes.

Make sure to explain- disorder is not to be received in the negative sense; it just means disordered in terms of not having a unitary sense of decision making and regeneration capability.

## IDENTIFIERS of DID

- a. The existence of two or more distinct personalities within the mind of an individual at any particular time.
- b. The personality that is dominant will determine the individual’s behavior or mood.
- c. Each individual personality has their own unique complexities.
- d. Individual has imaginary friends or playmates (this could be demonization as well)
- e. Individual may speak in another dialect or language
- f. Can cause memory loss, delusions, or depression
- g. Caused by past traumatic occurrences
- h. Can be evil or good
- i. Childlike manifestations in deliverance sessions or randomly as triggered
  - ii. Growth is stunted at the point in which the trauma took place

DID or MPD is the potential of the mind to dissociate from pain and trauma. It is a coping mechanism or a response to trauma. Memories will be held in separate parts of consciousness so the person is not in a constant state of recognition, i.e. compartmentalization.

- Some people who are multiple or dissociative may love the Lord but there is a part of them that when triggered will do some of the most horrific things.
- Multiples are not mentally ill, they are mentally deficient.
- They can have extremely high IQ’s.
- They can be extremely organized.

**Transgender-** male or female alter identity (personality) in the mind of the opposite sex.

### **ANCESTRAL GENERATIONAL ALTERS**

1. Ancestral- Passing on of thoughts and emotions, characteristics and feelings of the identity of that persons ancestors imprinted somewhere genetically so that future generations live out the same philosophy, ideas, and fears
  2. Generational- Passed on continually through the bloodline
  3. Dissociation- fragmented part that lives on in all of the issues
- It is someone from the past that passes on the associated identity that still lives on with all of its issues. It is the constant refocusing of those issues from generation to generation that allows Satan to use it effectively. That identity is not apart of the current issues but apart of the past issues. The behavior goes on and on and on.
  - Keeps a curse(s) active

Examples:

- a. African American has a slave master identity (personality) living inside them.
- b. Someone's identity can live on in the bloodline if they were murdered or sacrificed in a ritual ceremony
- c. Someone who had witchcraft performed on them or was the one who initiated the witchcraft or voodoo

### **SAR SATANIC RITUAL ABUSE**

Satanist or occultist will purposely create a sufficient amount of trauma to deliberately split the mind or consciousness so that the human mind cannot process it.

- For the purpose of manipulation and programming (MK Ultra)
- Processes taken from Nazi death camp Dr. Joseph Mengele
- Torture or rape victim with religious artifacts
- Multiples created so that person will prostitute, sale or consume drugs, or willingly sacrifice themselves
- Average age of initial violation is 18 months

### **NOTES:**

- Much spiritual abuse has been done in deliverance because people don't understand multiplicity, alters, and SAR. You cannot just "tell them to leave" and be done with it. In most cases you need to be in it for the long haul and much inner healing and restoration has to be imparted through the healing power of Christ.
- Usually the first screams in your deliverance sessions will be that of an alternative identity.
- If you get to a standstill in deliverance, you probably have alters or multiples to address.
- If you try to cast something out that has a human name, it is probably an alter.
- Demons are usually angry and mean or incredibly animated.
